

NORWOOD - POWER CHAIR & STAND

NPC-1400 & NPS-1400

NORWOOD Power Chair & Stand

NPC-1400 & NPS-1400

The Norwood Power Chair and Instrument Stand fulfills its duty as the durable cornerstone of any exam lane, while satisfying the most discerning eye with its comfortable, modern design. Our Power Chair and Stand is manufactured with high quality materials and designed to optimize the utilization of space in exam rooms. This reliable package is our most popular with clients purchasing again and again as their practice grows.

NORWOOD Power Chair NPC-1400

Multi-function chair and unit elevation control

The seat is polyurethane filled for great comfort. The padded headrest is adjustable with a single locking lever

Movement control is powered with a quiet, low voltage DC motor

Installation can be for either right or left-hand operations

The foot switch has fluid movement. Total positions up, down, front, back and return

Square base for stability

Dual side controls allow for easy adjustment from either side of the chair or from the instrument panel

Full 180° recline

325° rotation for easy access

NORWOOD Power Stand NPS-1400

Motorized slit lamp arm with 10" of vertical movement

Quiet, smooth electrical operation of both the chair and the slit lamp arm

Three charging wells for handhelds with charge indicator

Variable overhead lamp

Power and intensity control on stand

Motorized adjustable instrument arm – additional arm and chair adjustment switch located on arm to facilitate wheelchair patient's diagnosis

Backlit console panel controls chair elevation, slit lamp arm and overhead lamp brightness

Upper phoropter arm with 10" of vertical movement

Third arm available

**The NORWOOD Power Chair & Stand
is available separately or together**

Superior Functionality - Minimal floor space!
