

# NORWOOD DIGITAL SYSTEM

NLM-7000, NDR-7000, NAC-7000S & NRK-7000

**The NORWOOD Digital System is a total, integrated system\* and is EMR compatible!**

### NORWOOD AUTO LENSMETER

NLM-7000

- Hartmann sensor with 108 measurement points
- Auto-adjusting LED light and Dark Sunglasses Mode
- Green LED provides more accurate results without Abbe value compensation
- Scalable UV Measurement- from 0% to 100%
- Built-in Thermal Printer with Illustration

### NORWOOD AUTO REFRACTOR KERATOMETER

NRK-7000

- Cutting edge auto sensing and 3-dimensional movement mechanism allows for quick and accurate results
- High Order Aberration with Z Map
- White LED light and Full Color Mode
- 7" LCD Touch screen
- Peripheral Keratometry measurement data for contact lens fitting
- Color View Mode for contact lens fitting

### NORWOOD DIGITAL REFRACTOR

NDR-7000

- Dual cross cylinder lens supports fast and convenient astigmatic test
- Automatic occlusion and convergence
- Forehead rest indicator light
- Real time display on screen guides you for a faster and easier refraction
- Touch screen that swivels and tilts
- EHR Ready

*\* includes junction box for a total, integrated system, connecting your pre-test room with your exam room*

### NORWOOD ACUITY CHART

NAC-7000S

- 24inch WUXGA TFT LCD (1920 x 1200 pixels)
- Alphabet, Number, Snellen E, Landlot C, Pediatric, Red/Green, stereoscopic, binocular balance, Aniseikonia, fusion and suppression, heterophoria, etc...
- Easy to set the test distance 4.75' – 26' (0.25' step)
- Ability to check level of contrast using basic optometry chart provided
- Video and Image support for advertisements and educational videos

NLM-7000 DIMENSIONS:  
7.5" x 9.33" x 15" / 12 lbs.

NRK-7000 DIMENSIONS:  
10" x 19.5" x 17" / 44 lbs.

NDR-7000 DIMENSIONS:  
14.25" x 4.25" x 11" / 10.5 lbs.

NAC-7000S DIMENSIONS:  
22.36" x 14.65" x 2.13" / 8.82 lbs.
